

Welcome aboard, and thank you for downloading **The Adstow Project!**

Situated along the beautiful South West coastline, **Adstow** is a thriving fictional seaside town inspired by the charm and character of Devon's coastal communities.

Known for its bustling promenade, sandy beaches, picturesque harbour and family-friendly attractions, Adstow is the perfect holiday destination. Every summer, thousands of visitors flock to the town to enjoy the seaside atmosphere, making the bus network one of the busiest times of the year.

Leave the coast behind and you'll discover another side of Devon. Rolling countryside, quiet villages and hidden rural communities all rely on local bus services to stay connected. From narrow country lanes to lively market towns, The Adstow Project offers a varied driving experience across both urban and rural environments.

Whether you're transporting holidaymakers to the beach, commuters into town or students to school, there's always another journey waiting.

🚌 Meet the Operators

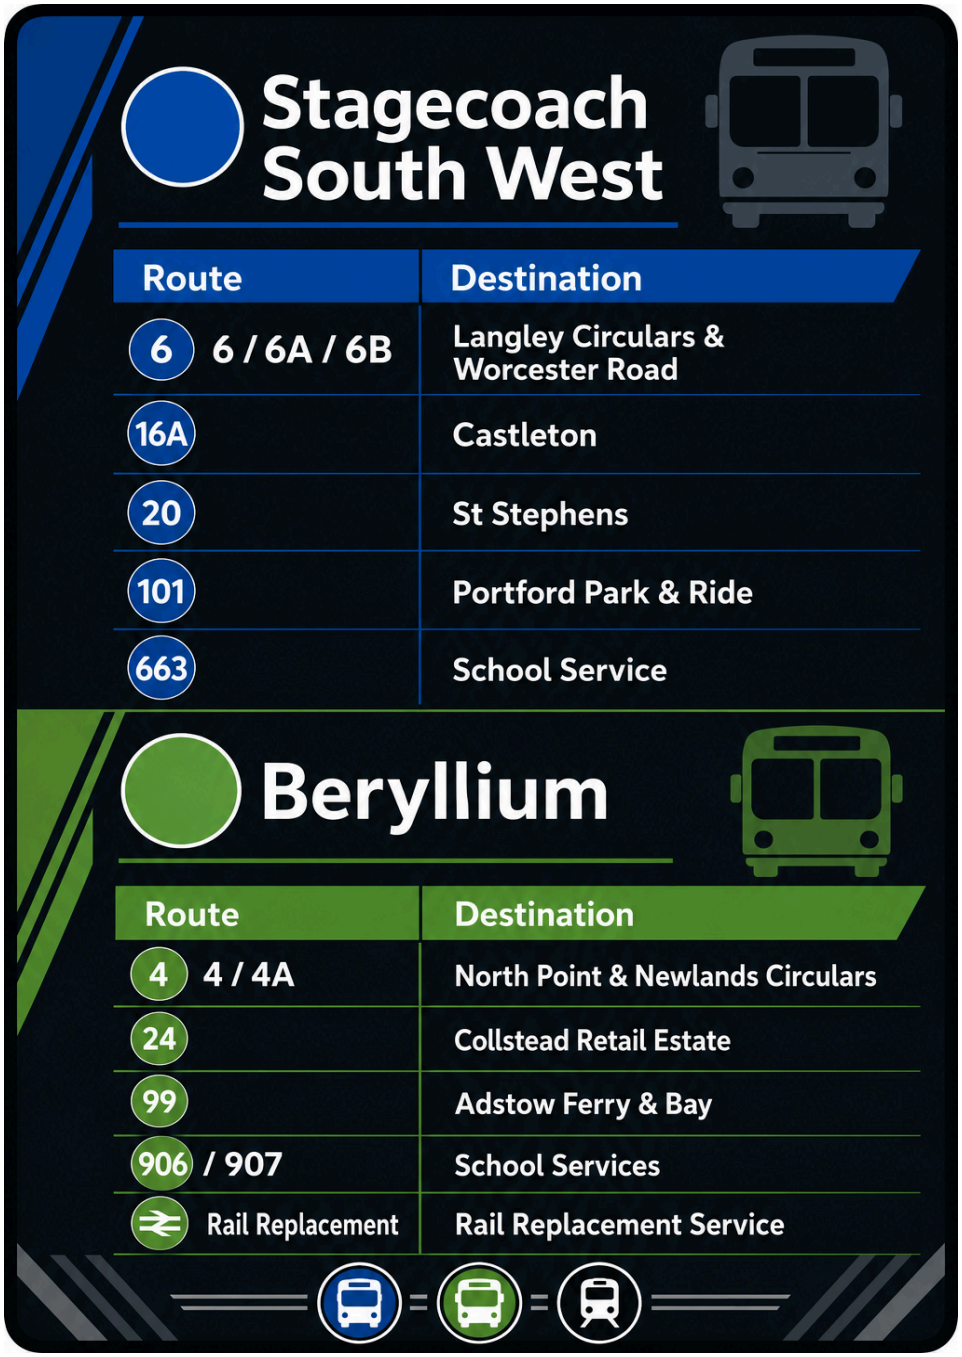

🔵 Stagecoach South West

The region's largest operator provides the backbone of Adstow's transport network. Their fleet serves busy urban corridors, commuter routes, park and ride services and school contracts, helping thousands of passengers travel across the county every day.

🟢 Beryllium

A friendly, family-operated independent company, Beryllium specialises in serving the communities larger operators often overlook. Their buses can be found travelling through picturesque villages, quiet country roads and local neighbourhoods, as well as operating several school services and rail replacement routes.

🗺️ Routes Included

📦 Required Add-ons

To ensure the map functions correctly, please install the following before playing:

Maps

- Westcountry 3 | Fellowsfilm
- Strathshire | Fellowsfilm
- Lincolnshire | Fellowsfilm ***V5 & V4 - Required for the 10.8mmc***

Objects & Scenery

- Daf XF 105 V 2 - OMSI WebDisk & Community
- Oberpfalz 3D - Objektpool - OMSI WebDisk & Community

Miscellaneous

- [UKDT] Pound Sterling (£, GBP) Money Pack | Fellowsfilm

Required Buses:

- OMSI 2 Add-On Studio Polygon 400 MMC Pack on Steam
- OMSI 2 Add-On Lancsbus Omnidecker on Steam
- ADL Enviro 200 MMC | OMSI 2 Buses | Fellowsfilm
- Alexander Dennis E200MMC Enhancement Pack | OMSI 2 Bus Mods | Fellowsfilm

- 10.8m E200MMC EP | OMSI 2 Buses | Fellowsfilm
- [UKDT] London Citybus 400R | OMSI 2 Buses | Fellowsfilm

⚙️ Installation

1. Open the .7z archive in Windows Explorer/My Computer or 7Zip. Holding the left mouse button, drag a box around all the folders visible so they are highlighted, then right click and select copy from the pop-up menu.

2. Navigate to and open your OMSI 2 directory (usually C:\Program Files\Steam\steamapps\common\OMSI 2)
or
2a) Open Steam
2b) Navigate to your library, then right click "OMSI 2"
2c) Click on "Properties"
2d) Click on the "Local Files" tab"
2e) Click on "Browse Local Files"

3. Right click the background (not any files or folders), and click "paste". You should not expect any pop ups to overwrite files, unless you are reinstalling, where you should accept any that show up.

4. You will find the Map listed in OMSI 2's map selection menu under The Adstow Project. If you can't see it in OMSI, please check that you have selected "load map without buses". If it is still not listed, redo installation from step 1 above, before requesting support. If you spot any bugs, before reporting please check they haven't already been reported on the file's Fellowsfilm support thread.

Special Thanks

A huge thank you goes to the OMSI community and all the creators whose vehicles, objects, splines, scenery and tools helped make this project possible.

Your work has helped bring Adstow to life.

Whether you're cruising along the seafront on a sunny afternoon, navigating winding country lanes, or operating a busy school run through rural Devon, we hope you enjoy everything **The Adstow Project** has to offer.

Thank you for downloading and supporting the project.

Have a fantastic drive, and welcome to Adstow! 🌊🚌☀️
